A scenic landscape featuring a river in the foreground, a dense forest of evergreen trees in the middle ground, and misty mountains in the background. The scene is overlaid with a series of seven downward-pointing chevrons, each containing a different natural element: the top chevron shows a close-up of tree roots, the second shows a misty forest, the third shows a dense evergreen forest, the fourth shows a sunlit forest clearing, the fifth shows a river with reflections, the sixth shows a close-up of a tree trunk, and the bottom chevron shows tall grass. The text "Where nature is the protagonist" is written in a white, cursive font across the middle of the chevrons.

*Where nature  
is the protagonist*

## OUR MISSION

We are keen to engender the fulfilment of our customers and partners by making the best machinery for green care and by providing all our energy and assistance. We believe in people, the value of work, and the strength of partnership. We are an independent company aiming to continue building a common future.

# BLUE BIRD PLANET

Blue Bird produces a complete range of machines and Accessories for garden care and maintenance, forestry work, and agriculture.

Whether you are a private or a professional you will find tools, advices and assistance because Blue Bird is a planet where nature is the protagonist along with everything you need to take care of it.

## 2024: ENLARGE YOUR HORIZONS

The new Blue Bird range is aimed at passions and to professionals who want to broaden their horizons in landscaping care. From battery-powered machinery to technical clothing, each product offers new guarantees in terms of performance, durability and reliability.

# NATURALLY TOGETHER

Together is a word that fully represents Blue Bird: together in the company, together with our retailers, together with everyone who uses our products. Blue Bird is there. Close to nature and people, of course!

We are very determined: everyone who will use one of our machines must have immediate benefits, satisfaction, greatly facilitated work, and a complete pre-sales and after-sales support. Every machine is meant to prove to be a reliable and loyal partner, just like Blue Bird.

*Enlarge  
the horizons  
in the care of  
greenery*

# We are Blue Bird

## WHY CHOOSE BLUE BIRD.

### INDEPENDENCE AND RESPONSIBILITY

We are an Italian company, solid and independent, not linked to multinationals. We are independent in our choices, investments, and production processes, and we take responsibility for them.

### FAMILY AND COMPANY

We like to define ourselves as a family company. Because the company is led by Vanda Vitella, the founder's daughter, because decisions are not dropped from above, because there is collaboration and sharing among colleagues, because the determination to grow together is pursued by everyone.

### TALENT AND PEOPLE

We believe in work as a value for the individual and for society. That is why we give space to young people and make sure to bring out, cultivate and reward everyone's talent, for the benefit of all and to generate fertile and lasting work.

### LISTENING AND COMPETENCE

To make our products, we listen to our customers' needs because we want to improve the quality of their lives. We are helped by our attention to change, all-Italian creativity, and streamlined and efficient production processes.

## RELIABILITY AND FAIRNESS

We are used to giving our word to customers, personnel, retailers, suppliers, and stakeholders and keeping it. We have long-lasting relationships and partnerships based on trust..

## ENVIRONMENT AND FUTURE

Living in contact with green, breathing nature is good for health and creates well-being. Our "pact" with the planet pays attention to the present, with comprehensive resource management, and to the future, with the study of projects dedicated to the schools and professionals of tomorrow.i.

## THE COMPANY IN NUMBERS

235

1200

retailers

130K

satisfied customers

2,5MLN

smiles

The latest addition is the line of machines powered by long-lasting, interchangeable lithium batteries.

Our constantly updated range includes petrol engines, brush cutters, lawn edgers, lawn mowers, vacuums cleaners/blowers, hedge trimmers, lawn tractors, lawnmowers, bio-wood chippers, chainsaws, winches, log splitters, pruners, scissors, Olive shakers, earth augers, motor tillers, crawler carriers, motor pumps and many Accessories.

With the new European regulations coming in, which limit the emission of unburned gases into the atmosphere from Engines, Blue Bird has designed and developed a new range of five environmentally friendly Engines..

## WINNING COMBINATION, PERFECT RESULTS.

One of the winning features of Blue Bird battery powered machines is the great adaptability. The different gardening and maintenance jobs can be tackled sequentially since the Blue Bird system allows you to use only one battery for multiple products, without compromising performance. Ease of use and low maintenance are standard.

From precision scissors to pruner, from brushcutters to lawn mower, from lawn tractor, from blowers to hedge trimmers, without forgetting the more specific products such as the tool for tying vine shoots, Blue Bird Battery machines make every job easier. We guarantee low levels of vibration despite the high and constant power. The new frontier of battery machines is here: the Blue Bird system is a new way to work more free and with greater efficiency.

## **PRACTICES RELIABLE POWERFUL**

The Blue Bird battery range is the most appropriate answer for the multiple needs of green care. Whether it is professional work on large areas or interventions confined to small private areas, the battery machines are essential to facilitate and speed up the action.

*Unstoppable  
energy*

### BATTERY PLATFORM BP 84

#### BATTERY PLATFORM BP 84

The BP84 battery platform with maximum voltage of 8.4V it is compatible with the PS 22-23 TWIN pruning shear, suitable for a quick and easy pruning.

Lithium Battery BT 84-2	<b>COD. 451970</b>	<b>€ 18,15*</b>
Charger	<b>COD. 5022001400000</b>	<b>€ 45,98*</b>

### PS 22-23 TWIN

BATTERY  
PRO 8.4 V

	<b>COD. 885930</b>
Working voltage	7.2 V
Maximum voltage	8.4 V
Cutting diameter	23 mm max
Cutting options	2 openings + progressive cut
Cutting time	0.4 sec
Lithium Battery	n. 1 included - 8.4 V - 2 Ah
Charging time	2.5 - 4.5 h
Weight battery included	830 gr
<b>Retail price</b>	<b>€ 140 - € 169,40*</b>

# BATTERY PLATFORM BP 126

## BATTERY PLATFORM BP 126

The BP 126 battery platform with maximum voltage of 12.6V powers different Blue Bird products making multiple pruning operations possible through a single accessory.

Lithium Battery BT 126-2.5	<b>COD. 451920</b>	<b>€ 42,35*</b>
Charger	<b>COD. 451940</b>	<b>€ 54,45*</b>

## CS 22-04

BATTERY  
PRO 12.6 V

### COD. 885610

Engine	Brushless
Working voltage	10.8 V
Maximum voltage	12.6 V
Maximum power	250 W
Lithium Battery	n. 2 included - 12.6V 2.5Ah
Bar	4"
Chain	1/4 - 1.1 mm - 29 drive links
Cutting size	100 mm
Speed	variable
Weight battery included	1 kg
<b>Retail price</b>	<b>€ 190 - € 229,90*</b>

*Guaranteed power*

## PCS 22-06

BATTERY  
PRO 12.6 V

### COD. 887390

Engine	Brushless
Maximum voltage	12.6 V
Lithium Battery	n. 2 included - 12.6V - 2.5 Ah
Bar	6"
Chain	1/4" - 1.1 mm - 38 drive links
Charging time	2.5 - 3.5 h
Weight battery included	2.4 kg
<b>Retail price</b>	<b>€ 295 - € 356,95*</b>

# GC 22-10

- 01. Grass trimmer head**
- 02. Hedge trimmer head:** suitable for maintaining domestic hedges.
- 03. Ergonomic handle allows** you to grip the scissors without difficulty for particularly easy cutting.
- 04. Hand protection.**

*A power never  
seen before*

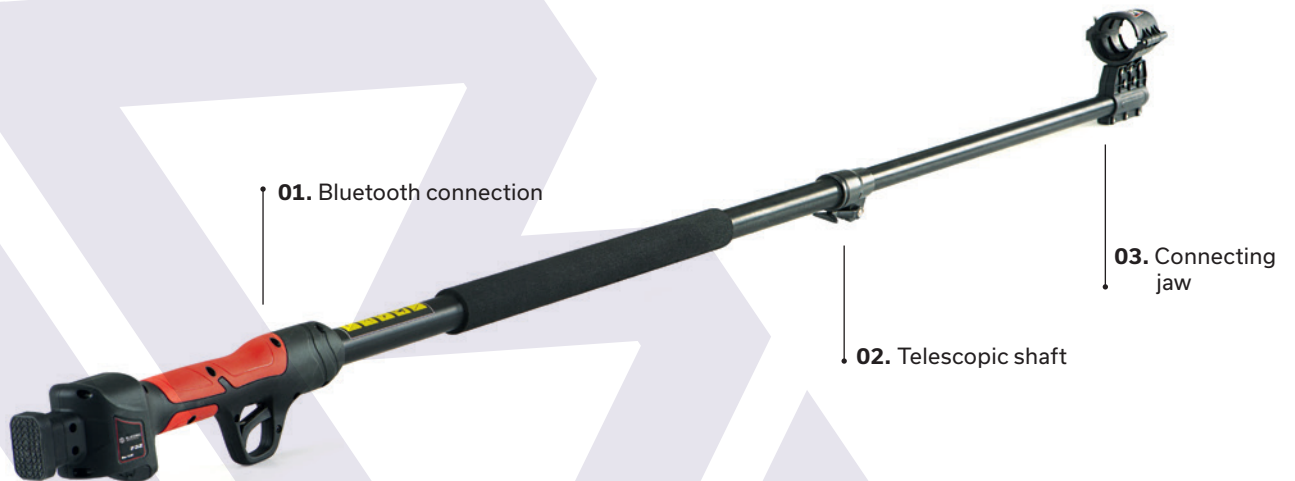

# SHAFT EXTENSION

- The range includes 1 extension compatible with the CS 22-04 pruner and the PS 22-23, PS 23-25 FASTER shears, one compatible with the PS 22-32C shears and one compatible with the PS 22-38 shears.
- The connection between the shaft and the tool is wireless.
- The shafts extend up to 2 meters allowing you to work in complete safety with your feet on the ground.

- 01. Bluetooth connection:** allows you to connect scissors and pruners.
- 02. Telescopic attachment:** allows you to extend the pole up to 2 meters.
- 03. Jaw Connecting:** quick tool change.

## EP 22-22

**COD. 7200140**

Shaft extension suitable to	Scissors PS 22-23, PS 23-25 FASTER Pruner CS 22-04
Closed shaft length extension	1.2 mt
Open shaft length extension	2.0 mt
Weight	1.2 kg
<b>Retail price</b>	<b>€ 120 - € 145,20*</b>

SHAFT EXTENSION

## EP 22-32C

**COD. 7200170**

Shaft extension suitable to	Scissor PS 22-32C
Closed shaft length extension	1.5 mt
Open shaft length extension	2.2 mt
Weight	1.2 kg
<b>Retail price</b>	<b>€ 120 - € 145,20*</b>

## EP 22-38

**COD. 7200160**

Shaft extension suitable to	Scissor PS 22-38
Closed shaft length extension	1.5 mt
Open shaft length extension	2.2 mt
Weight	1.2 kg
<b>Retail price</b>	<b>€ 130 - € 157,30</b>

# ACCESSORIES

- Wide range of accessories designed to optimize performance and ensure efficient machine maintenance.
- Our range of battery machine accessories is designed to give you maximum reliability and performance. Made with high-quality materials, our products ensure maximum efficiency of your work
- Green professionals or gardening enthusiasts, Blue Bird accessories are designed to meet your most pretentious needs.

The care and maintenance of vegetation are unthinkable without the basic machines: lawn mowers, large surface mowers, brushcutters and blowers. But also the story of Blue Bird you can't imagine without starting from the brushcutters. They were the first machine produced in 1978 after the development of combustion engines and still are the strength of the company. A history of ingenuity and quality that has expanded over the years with a range of machines that meets all needs..

Advanced technology, Italian design, high quality, handling: the Blue Bird lawn and bushes range must be chosen according to the needs of use and power. Whether it is the lawn at home or a complex work in uncultivated areas, Blue Bird machines are able to cut the time and multiply the results.

## FAMILY TALENT

Blue Bird's lawn & bushes line includes a wide selection of machines for maintaining parks and gardens and for work in uncultivated areas. From cutting to mowing, from bushes to hedges, for every task Blue Bird presents advanced solutions for both private and professional usage. Each machine is designed to give maximum satisfaction to the user.

*Cut out for  
giving our best*

Remote Control	PAG 84
Flail Mowers	PAG 86

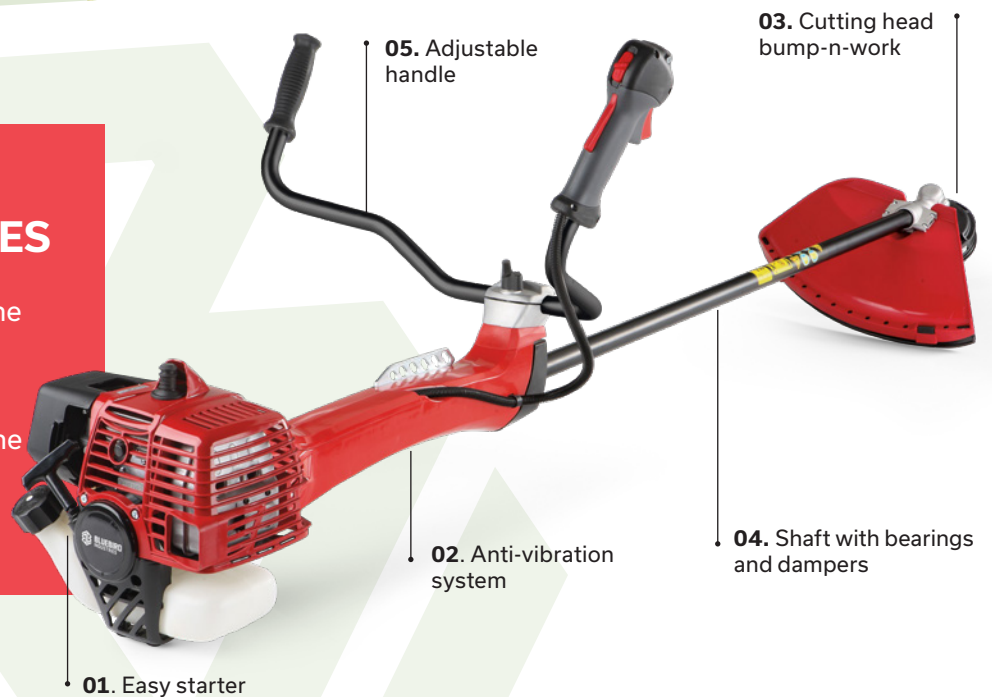

# BRUSHCUTTERS

- Blue Bird Industries has designed a range of brushcutters that can satisfy every user and adapt to the most varied needs and working conditions.
- The entire line has been developed in collaboration with professionals who use these machines in the woods, parks and gardens; for this reason, particular attention has been paid to safety, ergonomics and quality, reducing vibrations and noise.
- Every aspect of the engines has been reviewed in detail, making numerous changes and adjustments to optimize performance.

## ST POWER SERIES

The ST POWER series is the result of this careful work, a combination of attention to construction/design details and the choice of the best components.

- 01. Easy starting** with minimum effort to make the engine start quick and easy.
- 02. Anti-vibration system** made up of springs and rubber supports which guarantees the damping of vibrations between the shaft and the operator, allowing long periods of work without further fatigue.
- 03. Bump-n-work head** that guarantees a long period of work without having to stop, extracting the line simply with a knock on the ground while the tool is rotating.

- 04. Shaft mounted on bushings and vibration dampers:** the shaft support is made up of 5 self-lubricating bushings mounted on rubber, which guarantee rotation with minimal friction and dampened vibrations to optimize power transmission.
- 05. Adjustable handle** that guarantees the correct position of the operator.

# ST POWER

## VERY DEMANDING? ST POWER IS FOR YOU.

**ST Power is the new series of powerful and reliable machines suitable for those who are not easily satisfied.**

The latest generation of engines developed by the Blue Bird research and development department is the result of painstaking work on every construction detail and on every component. The results are evident at first ignition and last over time, but it is the combustion that gives the greatest satisfaction: more complete and effective, it allows to obtain the desired power while remaining within the EURO V parameters on polluting emissions.

- Power increased by 54%
- Working temperature decreased by 25%
- Torque increased by 63%

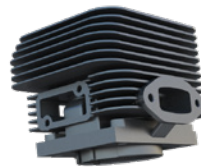

## New power generations

### UNSURPASSED IN RESISTANCE

The ST Power series has been put to the test by professional landscapers teams to verify the resistance of the machines to the stress of heavy use. Blue Bird's goal of ensuring powerful products that last unaltered over time has been rigorously implemented.

After several months in demanding environmental conditions, the ST Power machines demonstrated unchanged power and significantly less wear than expected on all components. All to the advantage of the quality of the work and interventions, which are extremely reduced.

- Unaltered performance even with heavy use
- Power and time do not increase wear
- Maintenance operations drastically reduced

#### CYLINDER

Completely redesigned distribution diagram for 25% more power than the previous model, squish and compression ratio have been revised to increase torque by 63%

#### MAIN BEARINGS

For maximum performance and long life, high smoothness main bearings are used.

#### FLYWHEEL

The flywheel has been modified for a 30% increased air flow. Neodymium magnets used for a more powerful spark and reduced weight.

#### CARBURETOR

New carburetor with increased venturi to ensure the right fuel supply to the engine.

# MULTI-TOOL ACCESSORIES

In addition to producing the most varied types of brushcutters, Blue Bird Industries offers a wide range of accessories for these machines, thus always guaranteeing the right tool for every type of job.

Among the accessories there is the chain pruner, indispensable for perfect limbing; the hedge trimmer kit, to be applied to the brushcutter shaft to cut hedges and bushes even at great heights and at the most diverse angles; various types of handles, belts, helmets, face shields, goggles and headphones. Finally, not to forget the handy bellows grease nipples for gearbox and the cans of synthetic oil essential for an excellent quality mixture, which guarantees the longevity of your engines.

## **CORALLO NYLON LINE**

In the range of Blue Bird Industries Accessories, nylon line is among the essential ones.

Our CORALLO thread stands out for its resistance and diameter which varies from 1.6 to 6 mm.

Depending on the use we have various types available: with round, square or star section. The length is also available in various models: from the 9/15 m bag up to the 10 kg reels..

## HEDGE TRIMMERS

- The edge trimmer is a tool designed for cutting hedges as easily as possible.
- Suitable for carrying out pruning activities without difficulty even on the sturdiest hedges.
- Consisting essentially of 3 elements: motor, handle, double cut blade in stainless steel.
- High quality blades guarantee a clean cut.
- The product is easy to use thanks to the adjustable handle to give the operator the possibility to always cut with maximum comfort.

01. Adjustable handle

02. Hand protection

03. Cutting tooth

04. Blades

**01. Adjustable ergonomic handle** for easier handling and comfort.

**02. Hand protection:** the handle placed close to the blade has the function of protecting the hands of the user.

**03.** The **teeth** are milled and can cut very thick branches.

**04. Double blades** with double movement cutting bars to ensure maximum precision.

## BLOWERS / SPRAYERS

- Blowers and vacuums ideal for clearing or collecting fallen leaves effortlessly.
- The vacuum function shreds the foliage optimizing the space in the bag, returning the material ready for composting.
- Sprayers for the maintenance of fruit and vegetable plants, suitable for all types of treatment thanks to the nebulization and pulverization function.

- 01. Handle** with vibration dampers for greater comfort.
- 02. Easy starting** that allows the machine to be started without effort and fatigue.

- 03. Lower handle** for conversion to aspirator.
- 04. Outlet pipe** aligned with the engine.

## LAWN MOWERS / SCARIFIERS

- The wide range of lawnmowers offered by Blue Bird Industries is able to satisfy the most varied needs of both the amateur and professional user.
- We find models which, thanks to their lightness and manageability, are ideal for the home garden and for surfaces up to 500 metres.
- The self-propelled lawn mowers, with steel or aluminum decks, guarantee great reliability and cutting quality in all situations and with surfaces up to 3000 metres.
- All models are equipped with Cutting height adjustment and grass catcher.
- The super professional models are equipped with a three-speed gearbox.

**01. Steel deck** for greater resistance.

**02. Side discharge deflector:** for an effective redistribution of the grass on the lawn.

**03. Accelerator lever** to customize the mower's cutting speed.

**04. Centralized height adjustment** that allows you to quickly select the desired grass height by choosing from the available positions.

## LARGE SURFACE MOWERS

- A new range allows easy lawn mowing while working quickly and with great results.
- Machines for professional use suitable for large surfaces such as parks or public gardens.
- The innovative, robust and stable structure allows practical and intuitive driving, ideal for terrains with obstacles that need to be circumvented with greater manoeuvrability.
- Pneumatic wheels are ideal for large uneven ground.

**01. Comfortable seat** to face hours of work in comfort.

**02. "Turf care"** rear wheels to adapt perfectly to the ground.

**03. Cutting plate** in welded steel sheet, robust, equipped with 3 blades. Made to tackle taller, denser grass with ease.

**04. "Easy lift"** deck lift pedal.

**05. Led lights** for a wide visibility.

## WHEELED BRUSHCUTTERS

- Wheeled brushcutters are machines particularly suitable for large surfaces, with very tall grass and in the presence of scrub.
- Designed for mowing inaccessible and hilly areas, they can be an effective alternative to straight shaft or backpack brushcutters.
- These machines offer a wide range of cutting applications that meet all user needs.
- The blade application ensures a cut with a high degree of shredding of the grass.

Blue Bird Industries offers models equipped with large wheels that make the machine extremely agile and easy to handle or models with small wheels and deep grooves that guarantee exceptional traction, even on particularly uneven terrain and steep slopes.

- 01. Adjustable bars** for comfort during use
- 02. Accelerator lever** that allows you to choose from the available Speeds
- 03. New belt protection cover** for greater strength and safety.
- 04. Nylon line cutting tool** for optimal shredding.
- 05. Wheels 16"** for exceptional traction

# *Impeccable lawn, unstoppable brushcutter*

WHEELED BRUSHCUTTERS

## REMOTE CONTROL

- The range is suitable for demanding mowing and removal of tall and consistent herbs, cleaning in the undergrowth or near ditches.
- Featuring excellent maneuverability and improved climbing ability on sloping terrain thanks to revolutionary design.
- Grass, brushwood and brambles are easily ground.
- All functions of the machine can be set by means of a radio remote control from a distance up to 200 mt.

## FM 23 - 53

Cod. 887810

Maximum voltage	28 V
Power	600 W
Engine	Loncin 224 cc
Blades size	21 Inchm 53 cm
Speeds	3
Rem contr band	2,4 g
Max comm distance	~200 m
Net weight	126 kg

**01. LED headlights:** for better visibility during use.

**02. Retractable blades:** longer life even in presence of woody shrubs or stones.

**03. Tracks:** suitable for the most difficult or slippery ground

**04. Cutting height:** Remotely adjustable from 3 to 6 cm

**05. STOP switch:** for emergency stop

Retail price

€ 4.700 - € 5.687,00

# FM 23-70

BATTERY  
28 V

- Hybrid system : Engine 452 cc 13,5 hp to ensure maximum power during cutting. 28V battery engine for efficient feed of the track drive. Oil pump for continued mowing on slopes of 30 degrees, maximum 45 degrees.
- **Or 100% electric**, battery drive 50 Ah or 100 Ah
- Standard radio remote control

*Unstoppable  
Power*

# FLAIL MOWERS

- The range is suitable for demanding operations of mowing and removal of tall and consistent grasses, cleaning in the undergrowth or near ditches.
- Excellent maneuverability and better climbing ability on slopes thanks to the revolutionary design.
- Self-propelled machines with different cutting heights, in order to satisfy the most demanding users.
- Grass, brushwood and brambles are ground simply.

- 01. Engine:** Loncin 4 stroke with oil bath air filter
- 02. Cutting width:** 86 cm for increased productivity
- 03. Cutting height:** Adjustable millimetrically

- 04. Tracks:** wide footprint for better grip in trend
- 05. Handlebar:** adjustable for better ergonomics

## FM 600

### COD. 883190

Engine	Loncin - 4 stroke - 252 cc
Torque	15 Nm / 2800 rpm
Power	5.2 kW / 3600 rpm
Cutting width	60 cm
Number of knives	32
Trasmission	3 forward speeds - 1 reverse
Turning radius	less than 1.2 mt
Dimensions	180 x 73 x 115
Weight**	145 kg
<b>Retail price</b>	<b>€ 2.700 - 3.267,00*</b>

## FM 750

### COD. 883200

Engine	Loncin - 4 stroke - 420 cc
Power	9.2 kW / 3600 rpm
Cutting width	75 cm
Number of knives	40

Number of knives	48
Cutting height	20-150 mm
Trasmission	3 forward speeds - 1 reverse
Efficiency	2500m <sup>2</sup> per hour
Turning radius	less than 1.2 mt
Weight**	285 kg
<b>Retail price</b>	<b>€ 4.860 - € 5.880,60*</b>

## EVEN THE ENVIRONMENT THANKS

A well-maintained wood, besides being pleasant to look at, is a safeguard for the environment. Both tree cutting and limbing are done in order to preserve the wood and obtain useful timber for multiple purposes.

Blue Bird products enable operators to apply the best technique and achieve excellent results by controlling power and cutting.

Relying on the right tools means finding the perfect allies for your work. Blue Bird chainsaws, pruners, log splitters are extremely handy, sturdy and safe.

Thanks to portable winches, you can clear the ground of logs either by towing or moving thanks to the quick hitch.

## HIGHER QUALITY

For forestry work, Blue Bird offers a special line of machinery to be able to intervene quickly and decisively in felling, limbing and handling of branches and logs to be hauled or moved. Products listed in the wood category are designed to act safely, in often inaccessible places, with maximum efficiency.

*When goals  
are high*

## WOOD

Chainsaws / Pruner	PAG 90
Winches	PAG 98
Log Splitters	PAG 100
Shredders	PAG 104
Wood Chippers	PAG 106
Saw Benches	PAG 110

## CHAINSAWS / PRUNER

- Ideal range for each specific skill: from felling, to pruning, to limbing.
- Compact cutting tools designed to be reliable, easy to use and efficient.
- The available models range from 25 to 54 cc displacement, with bars from 25 to 50 cm.

**01. 10" 3/8 bar** for greater precision.

**02. Double-ended brake** to ensure safety during use.

**03. "Always on" button** to assist the user in the ignition phase.

**04. Internal clutch** which guarantees greater engine strength.

**05. Steel anti-vibration** mounts that reduce vibrations and noise.

**06. 3/8 mini chain.**

## LOG SPLITTERS

- The range features models with both horizontal and vertical splitting, some equipped with an electric motor, others with a petrol engine.
- They allow you to effectively split logs effortlessly.
- The horizontal log splitters are equipped with a grid guard plate for total user safety.
- The vertical log splitters are equipped with a wheel kit and a sturdy and safe handle for moving on the ground.

- 01. Wedge height adjustment** to customize the height of the wedge that will cut the wood.
- 02. Raised surface:** allows greater control during cutting operations.
- 03. Transport wheels:** make it easier to move the product.

01. Height adjustment

02. Raised surface

03. Travel wheels

# SHREDDERS

- Keeping the green space clean and tidy is simple and immediate thanks to garden shredders.
- Compact structure ideal for disposing of pruning residues from trees, bushes, hedges and brambles.
- Reduce twigs and scrub so they are suitable for composting.
- They crush the material in a small space, also reducing the time required for decomposition.
- Perfect for producing humus to keep your soil and plants healthy.

- 01. Double knife disc for effective shredding.**
- 02. Deflector** for adjustable discharge.
- 03. Pneumatic wheels** for simpler transport.

01. Blade disc

02. Deflector

## SHL 700

- Loncin engine with 196 cc displacement
- Double knife disc 2600 rpm
- Travel wheels included

**COD. 886020**

Engine	Loncin 6.5 Hp
Displacement	196 cc
Max cutting branch Ø	7 cm
Rotor diameter	400 x 10 mm
2 cutters size	110 x 42 x 9 mm
Rotation speed	2600 al/min
Loading hole size	530 x 350 mm
Output hole size	150 x 150 mm
Vibration level	5.52 m/s
Travel wheels	n 2
Weight	90 kg
<b>Retail price</b>	<b>€ 1.020 - € 1.234,20*</b>

## SH 2500

- Electric motor with 2500W power
- Drum cutting system for better shredding
- Basket for collecting the shredded material
- Trolley with wheels for easy movement

**COD. 880450**

Engine	Electric 2500W - 230V - 50Hz
Cutting system	Drum
Max cutting branch Ø	4 cm
Collecting basket	included
Reverse speed	included
Trolley with wheels	included
Blade regulation	included
Weight	40 kg
<b>Retail price</b>	<b>€ 380 - € 459,80*</b>

# WOOD CHIPPERS

- Designed for grinding branches, logs and other biodegradable waste from the ground.
- Ideal for all those who need to do green maintenance and who need to grind quickly after pruning.
- Crushing the material reduces the time required for decomposition.
- Excellent for fast and professional green maintenance.

- 01. Shredding drum:** composed of two 233 mm blades, it allows the shredding of large diameters.
- 02. The large loading hopper** allows the insertion of the product to be processed with extreme ease.
- 03. The output** of the processed product can be directed in different directions.

## SAW BENCHES

- These machines are designed to deliver reliable performance and precise cuts in a variety of materials, ensuring a clean and consistent cut.
- Items that can handle demanding workloads without sacrificing cut quality ensuring fast and efficient material processing.
- IP54 degree of protection against dust and liquids ensures that the machine is resistant even in the most difficult conditions.
- Compact products ideal for use in small areas or on construction sites

**01. Engine:** powerful with 3200 watts

**02. Transfer wheels:** that allow easy transport

**03. Protection:** for more safety

## WHEN CARGO IS VALUABLE

Working in orchards, olive groves and vineyards requires continuous dedication and a range of specific equipment to take care of the plants efficiently and in short time. A very important machine for this activity is the crawler carrier, the flagship product of the Blue Bird agriculture line. Because of its size and manoeuvrability, it is the perfect tool for working on terracing, on steep slopes and with limited manoeuvring space.

The Blue Bird line for farming is especially aimed at all those who care for fruit trees, olive groves and vineyards.

All Blue Bird products are designed to make the work of caring, cutting and transportation easier while protecting the natural environment. They are made to last while always bearing excellent fruit.

## ALL-ROUND

Blue Bird's line dedicated to agriculture includes all those essential products for managing fruit trees: from harvesters to Olive shakers, from pruning shears to tying machines. And once the load is complete, Blue Bird Crawler carriers take care of moving loads wherever you want them, even on steep slopes.

*Always bearing  
excellent fruit*

# CARRIERS

- Blue Bird Industries carriers are faithful workmates in all situations where it is necessary to move heavy loads easily, even on steep slopes.
- The compact dimensions make them ideal for use on terraces and areas with limited maneuvering space.
- Details such as the track tensioning springs, the piston which helps the operator in tipping over the body and the extendable and removable sides, make Blue Bird carriers complete and extremely reliable machines.

**01. Accelerator lever:** the mechanical transmission is robust and resistant, with a gearbox with 3 forward and 1 reverse gears.

**02. Extendable sides:** allow increasing in the load volume.

**03. Tracks protection:** guarantees greater sturdiness even on difficult routes.

**04. Dumper box overturning lever:** simple control that offers ease of unloading.

## **EVEN FOR CONSTRUCTION INDUSTRY**

The Blue Bird soil line aims to offer the optimal solution for those involved in agricultural and forestry work but also in demolition, excavation, redevelopment and general construction. The line includes power augers, power drills, motor hoes, and mulchers ready to intervene even in inaccessible and difficult to reach places.

When work gets tough you need the right tools. With mulchers, the latest additions to the Blue Bird range, mowing operations where grass is tall and packed, where bushes or a thick undergrowth are present, are no longer a problem. The mulchers, manoeuvrable and powerful, like the entire Blue Bird soil line, offer power and solutions.

## THE BASIS OF ANY PROJECT

Preparing the soil well is the key step in ensuring excellent results. Blue Bird has designed a line of products specifically to support individuals and professionals to manage the soil but also to drill, demolish, remove. Working has never been easier.

*A range that leaves its mark*

## MINI EXCAVATOR

- Versatile machine for digging, lifting and moving materials in confined spaces or difficult to access. Widely used in construction, farming, landscaping and infrastructure maintenance.
- The mini excavator is versatile, suitable for digging foundations, trenches, drainage channels, leveling land, loading and unloading materials on vehicles and much more.
- The control station of the mini excavator has intuitive controls, safety devices such as anti-tipping systems and parking brake with Hydraulic lock for greater safety during parking and stopping.

- 01. Bucket:** 290 mm width with 0.011 m<sup>3</sup> capacity for good collection capacity
- 02. Engine:** powerful 306 cc engine
- 03. Speed and power:** with a running speed of 2,1 km/h and a traction force of 4,36 kN
- 04. Rubber trucks:** width of 150 mm that give stability and mobility
- 05. Control station:** with intuitive and accessible controls
- 06. Weight:** operating weight of 562 kg, can handle a wide range of tasks

# MEX 600

- The powerful 306 cc engine at gasoline provides the power needed for excavation activities. Starting is via key, offering an easy start and shut down of the Engine. In addition, there is also a Starting RECOIL system to ensure greater reliability.
- Hydraulic brake
- The bucket width is 290 mm with a capacity of 0.011 m<sup>3</sup>

# MOTOR DRILLS

- State-of-the-art drilling or breaking tools.
- Thanks to the right balance between power and handling, they are also invaluable in extreme situations and not only on construction sites.
- The ergonomic design makes them easy to handle and suitable for all conditions.

- 01. Handle:** guarantees increased grip and reduced vibrations.
- 02. Engine.** two types of engines are available: Honda and Blue Bird.
- 03. Drilling head:** Bosch hammer and SDS-max tool attachment.

## POWERFUL AND RAPID

Blue Bird's wide range of motor pumps meets all the needs of individuals and professionals. Irrigating, watering, and draining are the three main actions that are enhanced by quality, sturdiness, and speed. In addition, muddy water motor pumps are capable of handling debris up to 8 mm in diameter. The range includes models equipped with HONDA engine and KOSHIN engine, one of the world leaders in the industry which has been a close partner with Blue Bird for more than 30 years.

Blue Bird's extensive range includes motor pumps with 1", 2" and 3" couplings, as well as a high-pressure model for special usages. High-quality materials, powerful motors, and mechanical construction place Blue Bird motor pumps at the top of their class and results. The example speaks for itself: after 100 hours of operation in muddy water, STV motor pumps maintain 10% higher flow rate and 30% higher pressure than clear water models.

## ALWAYS UP FOR ACTION

The Blue Bird Water category includes the wide range of motor pumps for handling all types of water, including muddy ones. Powerful, lightweight, and reliable, they are used in multiple sectors, including construction, and for interventions due to floods or dangerous water spills.

*Down to the last drop*

**WATER**

Motor pumps

PAG 138

## MOTOR PUMPS

- Powerful and reliable, ideal for watering gardens and small crops, for application in the building sector, for draining garages and cellars.
- Indispensable aid for irrigating, watering and emptying large basins with extreme speed by extracting water from ponds or cisterns.
- The range features 1" 2" 3" models and a high pressure model for special applications.

01. KOSHIN K180 engine

02. Pump

**01. KOSHIN K 180 engine:** with recoil starter, it guarantees low noise and low vibrations.

**02. Pump:** usable for both muddy and sandy waters, equipped with silicone-based gaskets that guarantee a longer life.
